

TECHNICAL DATA SHEET

FASTEC GRAVEL-LOCK INSPECTION CHAMBER FOR GREEN ROOFS

A robust aluminium inspection chamber for green roofs and roof-top terraces. Allows easy and rapid access to services and roof drains with no disturbance to sedum or paving.

Size: 400mm x 400mm

Height: 100mm

Additional stacking inserts: 100mm height

Made from 5754 Aluminium

Removable lid

BENEFITS

- Smart appearance
- Side drainage slots
- Robust design
- Large size covers almost all outlet and sump designs
- Stackable to increase height where required
- Can also be produced for installation directly alongside a parapet wall (manufacturing lead times apply)
